NU
NOVURANIA

Novurania

Novurania SpA, founded 60 years ago in Tione, Italy, started producing under blankets in 1984 and soon developed its own technology for offset printing & coating blankets.

Based on pressurized sinkless technology, **Novurania** has the widest range of products for offset printing. Our blankets do not lose gauge on the press, resulting in consistent quality at all times. Our R & D department regularly works on improving the products as per customer requirements, a strategy which sets us apart from our competitors.

Our company, certified for **ISO 9001** and **ISO 14001**, follows eco-friendly processes to manufacture all our products and aims to achieve maximum sustainability.
